

Projects in Pattern Recognition using

MATLAB

Anupriya Kamble
Dr. Ramesh R. Manza
Dr. Yogesh M. Rajput
Dr. Dnyaneshwari D. Patil
Sushil Gawhale
Chetan P. Pattebahadur

Table of Contents

Chapter 1 Getting Started	1
Chapter 2 Detection of White Line In A Runway	9
Chapter 3 Feature Extraction and Classification of Hands	19
Chapter 4 Airway Image Extraction from Satellite	31
Chapter 5 Extraction of 3D Photography	43
Chapter 6 River Extraction from Satellite Image	53
Chapter 7 Freeway Image Extraction from Satellite Image	63
Chapter 8 Feature Extraction of Wood Duck	75
Chapter 9 Extraction of Feature of Agriculture Land in Matlab	91
Chapter 10 Detection of Tennis Court Images	103
Chapter 11 Detection of Various Features of Zurich Summer Images	113
Chapter 12 Detection of Various Vehicles In Images	127
Chapter 13 Zurich Urban Micro Aerial Vehicle Dataset: Detection of Mav Images	143
Chapter 14 Extracting Features of Skull	153
Chapter 15 Detection of Leaf from Plant	163
Chapter 16 Extraction of Features of Textures	173
Chapter 17 Detection of Various Features of Traffic Sign	183
Chapter 18 Detection of Various Features of Mandarin Bird	191
Chapter 19 Housecraft: Detection of House	209

Chapter 20 Housecraft: Detection of Window and Door	223
Chapter 21 Detection of Body Parts of Owl Bird	233
Chapter 22 Shape Detection of Cartoon Images	245
Chapter 23 Detection of Body Parts Of Toucan Bird	253
Chapter 24 Detection of Distinct Body Parts of Petals of Blackberry Lily Flower	265
Chapter 25 Detection of Carpel from Daisy Flowers	277
Chapter 26 Detection of Various Features of Puffin Birds	289
Chapter 27 Harbour Extraction from Satellite Image	301
Chapter 28 Extraction of Vehicles from Parking Lot	313
Chapter 29 4D Light Field Benchmark: Detection of Bicycle Images	323
Chapter 30 Detection of Traffic Signs	337

About the Book

Pattern Recognition is becoming a key area of attraction for young researchers in the field of Computer Science. This book includes 29 varied projects performed in Pattern Recognition; these are very basic guidelines for those who are interested to work in Pattern Recognition in their graduation or post-graduation courses or for newcomers in their research study. All these projects have been performed on different databases like Runway, Hands, 3D Photography, rivers, birds, traffic signs, housecraft images, flowers, etc.

About the Authors

Anupriya Kamble, Has completed M.Sc. in Information Technology (2015), M. Phil. in Computer Science (2017), and is presently working as a Research Scholar in Department of Computer Science and Information Technology, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (MS), India. Her areas of specialization include Pattern Recognition, Expert Systems and Machine Learning. She is an awardee of Rajiv Gandhi National Fellowship. She has attended a summer school (2019) held at International Level at Tokushima University, Tokushima, Japan. She has published around 7 papers at international platforms. She has authored 3 books.

Dr. Ramesh R. Manza, Has completed M.Sc. Computer Science (1996), NET and SET (2002), Ph. D. in Computer Science (2006) and is presently working as Associate Professor in Department of Computer Science and Information Technology, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (MS), India. His areas of specialization include Bio-Medical Image Processing, Computer Vision, Nano-robotics, MEMS and Biometrics. He has published around 245 papers at national and international platforms. He is leading two major research projects, awarded by UGC and DST, on Diabetic Retinopathy. He has authored 13 books. 25 students have been awarded M. Phil, 11 students awarded Ph. D. and 6 students are leading their Doctoral program under his guidance. He is recipient of Shikshak Pratibha, Vidhyaratna and Merit rank Third Award.

Dr. Yogesh M. Rajput, Has completed M. Sc. Computer Science (2012), M. Phil. Computer Science (2014) and Ph. D. Computer Science (2017) and is currently working as an Assistant Professor in MGM Dr. G. Y. Pathrikar College of Computer Science and IT, Aurangabad. His areas of specialization are Bio-Medical Image Processing and Diabetic Retinopathy. He has published around 30 papers in reputed Journals and Conferences. He has authored 11 books.

Dr. Dnyaneshwari D. Patil, Has completed M. Sc. Computer Science (2009), M. Phil. Computer Science (2015), Ph. D. Computer Science (2017) and is presently working as an Assistant Professor in Mahatma Gandhi Mission's Dr. G. Y. Pathrikar College of CS & IT Aurangabad. Her areas of specialization are Bio-Medical Image Processing and Glaucoma. She has published around 18 research papers in reputed Journals and Conferences. She has authored 6 books.

Sushil Gawhale, Has completed M. Sc. Information Technology (2015), M. Phil. Computer Science (2017) and is presently working as Research Student in Department of Computer Science and Information Technology, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad. His areas of specialization are Network Security and Penetration Testing. He has published 3 papers in reputed Journals and Conferences. He has authored 2 books.

Chetan P. Pattebahadur, Has completed M. Sc. Information Technology (2016), M. Phil. (2019) and is presently working as Research Scholar in Department of Computer Science and Information Technology, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad (MS)India. His area of specialization is Bio-Medical Image Processing. He is an awardee of Rajiv Gandhi National Fellowship. He has published around 2 papers at international platforms.
